```
interface User {  
    id: number  
    firstName: string  
    lastName: string  
    role: string  
}  
  
function updateUser(id: number, update: User) {

    saveUser(id, newUser)  
}
```

Components

You can use Vue components directly inside your slides.

We have provided a few built-in components like `<Tweet/>` and `<Youtube/>` that you can use directly. And adding your custom components is also super easy.

Block
